

Worcestershire Open Studios 2023 Guide

Meet artists in their creative spaces, see how they make their work and be inspired!

19–28 August

How to use this guide

This guide contains details of the 128 artists taking part in the event. Each artist has a venue number so you can see where they are located on the maps in this guide and online.

In the back of the guide there's an index of the artists listed by their first name along with a summary of the days that they are open and their artwork specialisms.

Simply select which artist you want to visit, check when they're open and turn up to be sure of a warm welcome. There's no need to book in advance and entry to all venues is free.

Not all artists are open every day. Artists choose when they open over the ten days. A calendar style graphic is displayed at the base of each listing. A coloured date circle shows when the artist is open with the times underneath.

Key to listings icons

You can search for artists by name, their artwork specialism or location and there's an interactive map with all the locations so that you can plan your route.

Check before you visit

All details in this guide were correct at time of going to print. For the most up to date information, we strongly advise checking our website before setting out on your visit, or call the artist directly.

This year we have more studios than ever taking part – 97 venues showcasing 128 artists, with over 40 artists taking part for the first time.

Artists welcome you into their homes and studios giving you a unique behind the scenes glimpse into how they make their work. Learn and ask questions, see the tools and materials they use, watch demos and in some cases you may have the chance to have-a-go yourself.

Studios are free to visit and this guide contains details of everyone taking part, their opening times and locations. There is a diverse range of artwork to see from painting, sculpture, printmaking, jewellery, ceramics, photography, textiles, wood-working and lots more. Visit our website for more information, and the opportunity to search by artist, genre and location.

Enjoy, and have a great Open Studios!

From the Organisers,

PAINTER

Castles have always interested me, and having retired, I began a quest to paint ruins and then recreate them as they may have been 500 years ago. I paint mainly ruins from the English/Welsh Marches area using acrylics. I would be very happy to discuss my journey over the last four years, and how my painting has changed.

FINE ARTIST

When I draw and paint I try to capture the personality of the subject. This is influenced by my relationship with the subject and so my emotional response becomes interlinked with the art. Vivid, dynamic contemporary abstract works on canvases up to 150 cms with the wow factor for home or office. I use a variety of acrylic fluid techniques to create paintings which have impact from a distance but also incorporate fascinating details. My works, although abstract, often echo the natural world such as, floral and botanical structures.

I cut the glass by hand, then place in a kiln at high temperature to fuse the individual pieces together. I also run workshops to share my love of this unique and beautiful craft.

If heading down Harcourt Road, away from the hills, take the second dirt track on the left, immediately before the sign for Mathon and the post box.

Gabrielle Rucinski

DESIGNER/MAKER USING PORCELAIN AND GLASS

Porcelain for me, is the ideal material for expressing the beauty and resilience in nature. The vessels, bowls and vases that I make are inspired by the form and textural elements of trees and plants. The sculptural forms involve the combination of glass with porcelain and are all part of my continuing investigations using these materials.
